PROFESSIONAL SUMMARY	<div>Full Stack Engineer with 4+ years of expertise delivering high-impact web solutions that drive business growth. Proven track record of optimizing database performance by 50%, reducing deployment times by 90%, and leading cross-functional teams to achieve 98% client satisfaction. Expert in architecting scalable enterprise applications using PHP, Laravel, Symfony, Go, Svelte and Vue.js. Successfully mentored junior developers with 100% retention rate while implementing CI/CD pipelines that transformed development workflows.</div>
PROFESSIONAL EXPERIENCE	<div><div>Fullstack Engineer April 2024 – December 2025 (1 year 9 months)</div><div>Bank PSB Public Joint-Stock Company</div><div><ul style="list-style-type: none">Architected and delivered 8+ enterprise-grade web applications using tech stack – PHP, Laravel, Symfony, Vue.js, TypeScriptOptimized database performance across MySQL, PostgreSQL, and Redis, achieving 40% faster query response times through indexing and caching strategiesLed API integration initiatives with 12+ internal services, streamlining cross-departmental data flow and reducing manual processing by 60%Enhanced internal corporate portal (CRM Bitrix24) serving 500+ employees, implementing features that improved user engagement by 45%Collaborated with stakeholders in bi-weekly meetings to gather requirements and deliver solutions that met 95% of business objectives on first iterationImplemented real-time features using socket.io, improving user experience and reducing page refresh requirements by 80%Designed scalable software module architecture following SOLID principles, decreasing code maintenance overhead by 25%</div></div> <div><div>Fullstack Engineer December 2022 – April 2024 (1 year 5 months)</div><div>First Bit</div><div><ul style="list-style-type: none">Delivered 15+ client projects on schedule using diverse technology stack (PHP, Symfony, Golang, Vue.js, Svelte, TypeScript), maintaining 98% client satisfaction rateOptimized MySQL and PostgreSQL database queries, improving application load times by 50% and reducing server costs by 20%Configured MySQL replication and orchestration infrastructure, achieving 99.9% uptime and zero data loss incidentsDesigned and developed RESTful APIs consumed by 20+ external clients, ensuring robust documentation and backward compatibilityMentored 4 junior developers during probation period, with 100% successful completion and retention rateEstablished CI/CD pipelines using GitLab CI/CD and GitHub Actions, reducing deployment time from 2 hours to 15 minutesSuccessfully managed PHP 7.4 to 8.1 and MySQL 5.7 to 8.0 production upgrades with zero downtimeLed technical requirement workshops with clients, improving project estimation accuracy by 40% and reducing scope creepMaintained comprehensive technical documentation for 10+ projects, facilitating seamless knowledge transfer and reducing onboarding time by 30%Presented at internal development hours, educating 25+ colleagues on modern tooling and best practices</div></div>

Fullstack Engineer | April 2021 – December 2022 (1 year 9 months)

Web Solutions Center

- Developed and launched 20+ websites and landing pages using PHP, JavaScript, WordPress, and 1C-Bitrix, meeting all client deadlines
- Implemented comprehensive SEO optimization strategies, increasing organic traffic by an average of 65% across client projects
- Built single-page applications (SPAs) with modern JavaScript frameworks (Vue.js, Svelte), improving page load speeds by 70%
- Refactored and optimized existing web components, reducing page load times by 45% and improving code maintainability
- Integrated third-party services and APIs for 10+ clients, extending functionality and reducing manual workflow by 50%
- Participated in daily standups with project managers, ensuring alignment and resolving blockers within 24 hours
- Designed and implemented business process automations of varying complexity, saving clients an average of 10 hours per week in manual tasks
- Provided ongoing website maintenance and support with 99% uptime across all managed projects

EDUCATION

Baikal State University | 2022 – 2026

Bachelor of Science
Management Information Systems

Irkutsk Aviation Technical College | 2018 – 2022

Associate’s of Science
Software Development

TECHNICAL SKILLS

Languages

PHP, JavaScript, TypeScript, SQL, Golang, Python

Frameworks & Libraries

Laravel, Symfony, Vue.js, Svelte, jQuery, Livewire, Filament, Tailwind CSS, Bootstrap

Databases

MySQL, PostgreSQL, MongoDB, Redis, SQLite

CMS & Platforms

WordPress, Joomla

DevOps & Tools

Git, GitHub, GitLab CI/CD, GitHub Actions, Docker, Linux, Nginx, Apache, RabbitMQ, socket.io

API & Integration

REST API, JSON API, Third-party API Integration

LANGUAGES

Russian: Native

English: B1 (Intermediate)
